Advanced lifting & lowering kit 50m

WK55050

Complete kit for rigging and light lifting.

The lifting and lowering kit is designed to lift small loads and is ideally suited to the renewables, construction and telecoms industries.

The Prism rope control device provides a hands free locking function and can be changed from lift to lower whilst under load.

Hurricane hauling device allows a pulley system to be added or removed quickly and easily.

Additional pulley can be used for redirection or increasing mechanical advantage as required.

The kit comes complete with:

- Prism descender/rope control device
- Hurricane hauling device
- 50mm pulley
- 11mm diameter rope with sewn terminations for safety & strength
- Load rated storage bag
- 1m wire strop x 2
- Triple action steel karabiners x 3

Use 2 kits to produce a hauling system with tensioned pilot line

Optional extra: 150kg SWL lifting bag (BL01)

Lengths available: 50m, 100m

Specifications:

Size:	50m
Materials:	Stainless steel, Aluminium and polyamide
EN test Mass:	
Loading:	100 kg
Weight (kg):	8.00
Conformity:	Various
Markets:	Renewables, construction, telecoms
