

Footloop, 1 step adjustable

MMFL1

Adjustable footloop to aid rope access ascending

Features:

- reinforced treads
- • durable webbing construction
- lightweight & compact

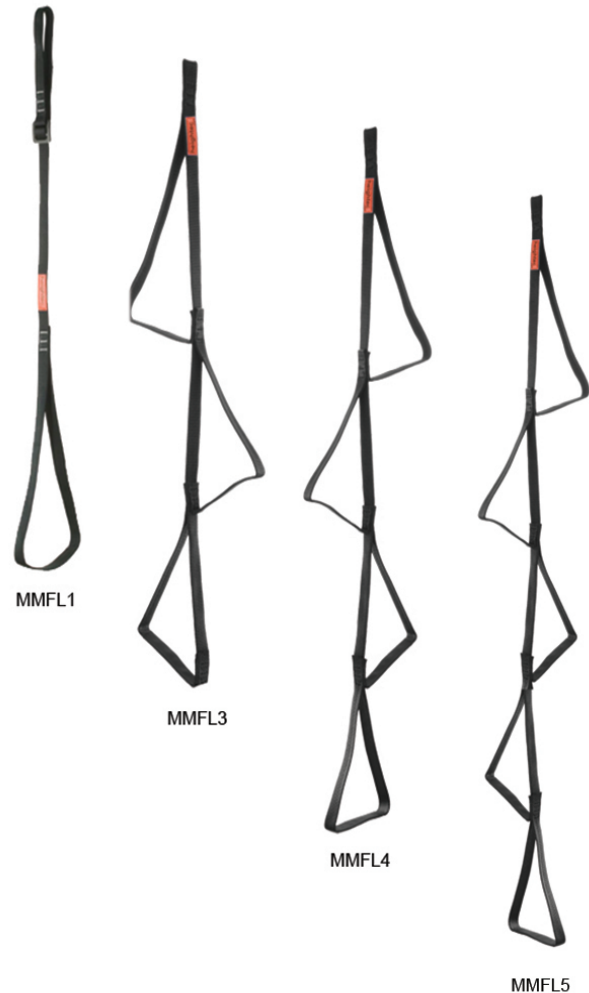

Each foot tread is reinforced to hold its shape, this not only makes the step easier to find but also increase the durability of the footloop.

The lightweight design ensure the footloops are unobtrusive when carried or packed away.

1 step - adjustable length 84 - 110cm (MMFL1)

Fixed options available:

- 3 step - fixed length 103cm (MMFL3)
- 4 step - fixed length 130cm (MMFL4)
- 5 step - fixed length 153cm (MMFL5)
