

Products, training and operational support services for professional work at height and rescue

## Nexus fall arrest 2 point harness

H32

Fall arrest and restraint harness suitable for all general work at height.

Key features include:

- Front attachment / rescue point
- Rear attachment point
- Fully adjustable
- Enhanced protective web sleeves
- Contrasting colour leg and torso webbing

Front attachment point is suitable for fall arrest, vertical systems and rescue.

New shoulder buckles allow quick and easy adjustment with one hand.

Adjustable harness structure ensures good fit with maximum comfort and security.

Unique stainless steel chest plates orientate the webbing for optimal comfort.

Contrasting colour of leg and torso webbing assists correct fitting of harness for less experienced user.

Measurements:

Torso 85 - 128cm  
Thigh 60 - 100cm

Also available:

H32Q - Quick connect leg and chest buckles plus shoulder and leg pads
