## Sentinel chainmail rope protector 0.5m

MR705

Rope protector 0.5m length. Chainmail construction for high cut resistance.

- Wrap around style rope protector with Velcro closure
- Stainless steel for corrosion resistance
- Prussic loop attachment to rope with captive 3 mm cord
- Chain mail construction gives high cut resistance
- To protect paintwork or other easily damaged surfaces from chainmail replaceable covers are available
- Not recommended for use at an angle over an edge

'See through' chainmail construction allows the rope to be viewed without removing the protector.

In tests against a guillotined steel edge the chainmail withstood over 200 passes. In the same test, canvas was cut through after 2 passes.

Can also be used to protect ropes, lanyards, cowstails etc. when working with sharp tools or materials.

Dimensions (open) 45 x 16cm

Supplementary attachment loop allows multiple protectors to be connected together to cover longer lengths.

### Optional secondary covers:

Available separately. Both options attach to the Sentinel with velcro. Once fitted, the Sentinel can be opened and closed as normal.

MR705C - Clear PVC. Allows sight of the rope inside the Sentinel.  
MR705P - Black PVC. Greater durability.

Patent Pending GB1600292.5
