

Rope access kit

WK22

High specification industrial rope access kit with innovative rope devices

The rope access work kit is designed to be used straight out of the bag and features our new, innovative advanced rope devices Prism and Quantum.

This work kit has been recently updated to include the EXTOL rope access harness and SYNC removable chest ascender, a 4 step foot loop in place of the three step, and a triple action alloy krab to replace the steel screwgate used with the descender.

The EXTOL rope access harness features a unique design to increase comfort and make ascending easier and more efficient.

Designed for rope access and rope rescue.

Quick connect leg buckles for rapid fitting.

Ascenders have high load ratings with double attachment holes.

Individual products in this kit:

- EXTOL - Full Body Rope Access Harness
- SYNC - Removable Chest Ascender
- QUANTUM Back-up Device
